CONTENTS

Pages

127  The oblique derivative problem for nonlinear elliptic complex equations
     of second order in multiply connected unbounded domains
     \textit{WEN Guo-chun}

138  Entire solutions of a certain type of functional-differential equations
     \textit{ZHANG Xiao-bin  YI Hong-xun}

147  Best bounds on the distance between 3-direction quartic box spline surface
     and its control net
     \textit{ZENG Xiao-ming  ZHOU Guo-rong  YANG Lian-qiang}

158  A new mixed scheme based on variation of constants for Sobolev equation
     with nonlinear convection term
     \textit{LIU Yang  LI Hong  HE Siriguleng  GAO Wei  MU Sen}

173  On the optimal harvesting of size-structured population dynamics
     \textit{LIU Yan  CHENG Xiao-liang  HE Ze-rong}

187  Optimal investment for the defined-contribution pension
     with stochastic salary under a CEV model
     \textit{ZHANG Chu-bing  RONG Xi-min  ZHAO hui  HOU Ru-jing}

204  Coupling for Markovian switching jump-diffusions
     \textit{XI Fu-bao}

217  The characterization of $\Gamma$-modules in terms of fuzzy soft $\Gamma$-submodules
     \textit{ZHOU Min  XUANG Da-jing  ZHAN Jian-ming}

240  $f$-Harmonic maps of doubly warped product manifolds
     \textit{LU Wei-jun}
