

CONTENTS

Pages

- 127 A perspective on recent methods on testing predictability of asset returns
LIAO Xiao-sai CAI Zong-wu CHEN Hai-qiang
- 145 Variable selection via generalized SELO-penalized linear regression models
SHI Yue-yong CAO Yong-xiu YU Ji-chang JIAO Yu-ling
- 163 Inference for a truncated positive normal distribution
Héctor J. Gómez Neveka M. Olmos Héctor Varela Heleno Bolfarine
- 177 Higher order asymptotic behaviour of partial maxima of random sample from
generalized Maxwell distribution under power normalization
HUANG Jian-wen WANG Jian-jun
- 188 Characterizations of realized homogeneous Besov and Triebel-Lizorkin spaces
via differences
MOUSSAI Madani
- 209 Double sampling derivatives and truncation error estimates
Rashad M. Asharabi Aisha M. Al-Hayzea
- 225 Reconstruction of the Sturm-Liouville operator with discontinuities from a
particular set of eigenvalues
XU Xiao-chuan YANG Chuan-fu
- 234 A note on Pythagorean hodograph quartic spiral
ZHENG Zhi-hao WANG Guo-zhao
